

## AMENDMENTS TO THE CLAIMS

Please amend the claims as follows.

1. **(Currently Amended)** A non-wax glass polishing composition comprising:

- a) a water-repelling and film-forming acrylic resin;
- b) silicone fluid;
- c) finely divided titanium dioxide abrasive;
- d) a hydrocarbon solvent;
- e) an alkanol solvent;
- f) acrylic polymer; and
- g) water

wherein the polishing composition is substantially free from wax.

2. **(Previously Presented)** The polishing composition of Claim 1 further containing a preservative.

3. **(Previously Presented)** The polishing composition of Claim 1 further containing a fragrance.

4. **(Currently Amended)** The polishing composition of Claim 1 wherein:

the acrylic polymer-~~resin~~ comprises from about 0.6% to about 2.5% by weight of the polishing composition;

the silicone fluid comprises from about 4% to about 8% by weight of the polishing composition;

the abrasive comprises from about 1% to about 6% by weight of the polishing composition;

the hydrocarbon solvent comprises from about 5% to about 25% by weight of the polishing composition;

the alkanol solvent comprises from about 2% to about 5% by weight of the polishing composition;

the acrylic polymer comprises from about 1.2% to about 2% by weight of the polishing composition; and  
water comprises the remainder of the composition.

**5. (Currently Amended)** The polishing composition of Claim 1 wherein:

the acrylic polymer ~~polymer~~ resin comprises from about 1.3% to about 1.8% by weight of the polishing composition;

the silicone fluid comprises from about 4% to about 6% by weight of the polishing composition;

the abrasive comprises from about 2% to about 3.5% by weight of the polishing composition;

the hydrocarbon solvent comprises from about 8% to about 13% by weight of the polishing composition;

the alkanol solvent comprises from about 2% to about 5% by weight of the polishing composition;

the acrylic polymer comprises from about 1.2% to about 2% by weight of the polishing composition; and

water comprises the remainder of the composition.

**6. (New)** A non-wax glass polishing composition consisting essentially of:

- a) a water-repelling and film-forming acrylic resin;
- b) silicone fluid;
- c) finely divided titanium dioxide abrasive;
- d) a hydrocarbon solvent;
- e) an alkanol solvent;
- f) acrylic polymer; and
- g) water.
